

CREATING A PARENT ACCOUNT IN CANVAS

Canvas is Rock Hill School's Learning Management System. Families with students in grades 3-12 have access to Canvas where students and parents can view course information, assessments, and student grades.

1. To create an account, please go to **rockhill.instructure.com**
2. From the screen, you will click the section that says, "**Parent of a Canvas User? Click Here For An Account**"

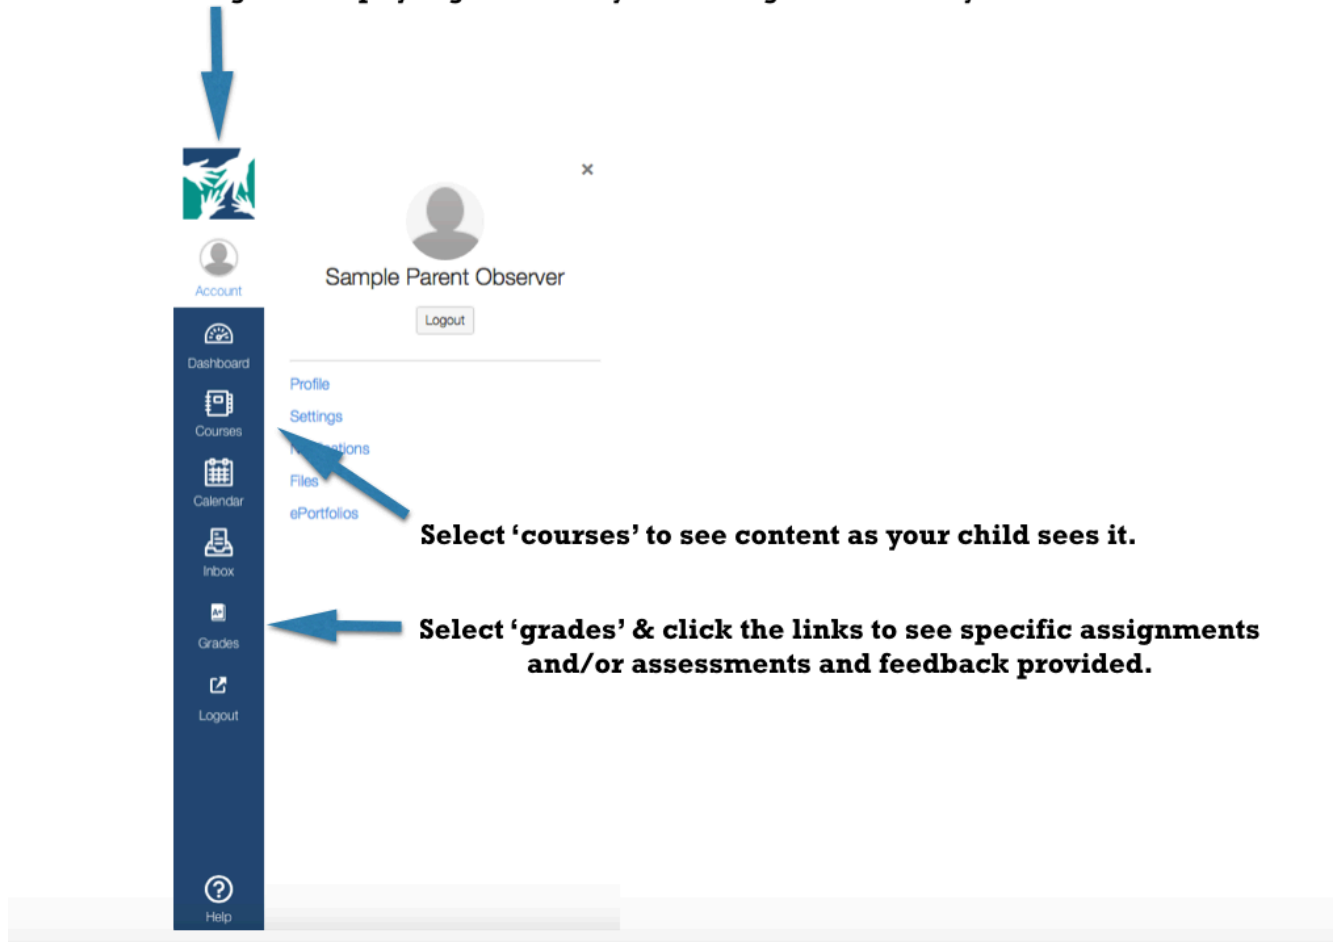

3. Enter **your full name, your email address** (this will be your username for Canvas)
4. Enter **your child's Canvas username and password** (as written below)

***You will receive an email verification prompting you to create a password.**

Congratulations, your account is created! 😊
You can now take a look at your child's courses and grades.

The Global Navigation helps you get to where you want to go across all of your child's Canvas courses.

****Be sure to click on 'Account' and then 'Settings' to set up your notification preference. This will determine how often you receive updates regarding your child's progress.**
